

Dear Parents and Caregivers,

Baverstock Oaks School is happy to announce that we are using Seesaw as our online student portfolios. Seesaw will support you as a parent/caregiver keep in touch with your child's learning on an authentic basis. You are able to regularly see how your child is learning at school and be able to engage in meaningful conversations when you catch up in the afternoon/evening about the exciting learning from today.

Seesaw is an application and website that instantly shares what your child is learning. This means, you will get work throughout the term rather all at once at the end. You can comment and like their posts which can be photos, videos, documents, annotations, voice recordings and more.

The benefits of Seesaw are endless; it not only enables your child to become more confident with using technology, it teaches them the importance for Cyber Safety, as well as giving an idea of what your child is learning and how they're learning it.

Attached below is an outline from Seesaw:

Seesaw gives your child a safe space to document their learning and learn how to use technology.

Each child gets their own journal and will add work to share what they're doing at school.

When your child adds items, you'll be notified. Your child's journal is safe and secure.

Any questions or queries about Seesaw, please feel free to ask classroom teachers for more information.

Kind Regards,

Mary Wilson
