

Camp Bentzon Consent Form - 2022

Our main priority in running camps is the safety of all children and adults attending. Baverstock Oaks School follows all Education Outside the Classroom policies and procedures. The staff, who run the camp, are very experienced and follow all health and safety procedures as well. They have had no major incidents in the twelve years they have been running the camp. In 2015, we were requested by new Adventure Activities Legislation to get parents to sign the following form on behalf of their children. Parents and staff attending camp will also need to fill this in. In order for the camp to achieve their Work Safe Qualification all parents must sign this form prior to their child attending. Although it outlines that your child is in an environment where some accidents may happen, please be assured that every safety action plan is put into place to ensure the safety of your child. Your child will not be forced to do any activity they are not comfortable in doing. Remember everyday life is not totally safe e.g. crossing roads, climbing stairs etc. It is up to us all to identify how we can minimise risk and know our own limits.

I _____ consent to myself/son/daughter participating in all activities at Camp Bentzon. I acknowledge that the location and activities may be of an adventurous nature, and that across the whole site there is potential for trips and falls, resulting in cuts/breaks also insect stings. The range of structured activities may include the marine environment with the risk of immersion in cold salt water or contact with Marine life. There are bush, hiking and confidence course activities with the potential for falls, cuts and breaks. In signing this document, I am aware of the general nature of the activities and that these activities represent a change in the participant's normal routines and may be physically demanding. Camp Bentzon and its staff make all reasonable efforts to eliminate or minimise the risks but I understand that all hazards and dangers associated with these activities may not be foreseen or may be beyond the control of the Camp and staff. Please disclose, on the health form you will receive any medical condition, which may affect you/son/daughter from participating in any activity which maybe strenuous, cold, wet, stressful or at a height.

I give permission for my child to attend Camp Bentzon in 2022. Yes / No (please circle)

If you indicated your child is unable to attend camp please indicate the reason:

Child's Name: _____

Class: _____
